SLOW WALL

Slow Wall

Slow Wall is available in the 40x120 size and two warm colours (Pomice and Calce) and two cold shades (Gesso and Cromo), plus two 3D structures and a decor. Myrtle is inspired by the leaves of the myrtle tree, printed in relief with grit applied using the Touch technology, and is offered in 3 versions: Calce, Gesso and Cotto. It is used horizontally, across the entire wall or as a partial panel. With its triangular geometrical shapes with their raised edges, the 3D Hay structure evokes the architecture of traditional hay barns. The 3D Dash structure, as the name suggests, features vertical dashes of irregular length, running in different directions. The plain tiles and 3D structures can be installed either horizontal or vertical, for a whole-wall or boiserie effect.
