## **Terratinta Group**

---

Established in 2017, Terratinta Group Srl has been created to merge two ceramic companies and their brands: **Terratinta Ceramiche** and **Ceramica Magica**. Both brands span over 50 countries around the world with their individual identities harmonised, providing a medium-high end product in Italian porcelain stoneware. Starting from 2018, a third, new brand has been launched, **Sartoria**.

Our story started during the years of a global economic recession and developed over time thanks to our core values: passion, simplicity and professionalism.

Our story is about a young group that continues to flourish every day, is about people who find success in their daily routine and continue to raise the bar through perfection. We keep on improving ourselves, our products and our services, always seeking for what's better than yesterday.

Our corporate website, [terratintagroup.com](http://terratintagroup.com), aims to give a clear, direct and exhaustive idea of what we are and what we do. Together we created our Today. Together we will create our Future. Because our story is **#notaclassicstory**.

Fondato nel 2017, Terratinta Group Srl è stato creato per unire due aziende ceramiche e i loro marchi: **Terratinta Ceramiche** e **Ceramica Magica**. Entrambi i brand coprono oltre 50 paesi in tutto il mondo con le loro identità individuali armonizzate, offrendo un prodotto di alta gamma in gres porcellanato italiano. A partire dal 2018 un terzo, nuovo brand è stato fondato: **Sartoria**. La nostra storia è iniziata negli anni di una recessione economica globale e si è sviluppata nel tempo grazie ai nostri valori fondamentali: passione, semplicità e professionalità.

La nostra storia parla di un giovane gruppo che continua a crescere ogni giorno, parla di persone che trovano successo nella loro routine quotidiana e continuano ad alzare l'asticella attraverso la perfezione. Ogni giorno continuiamo a migliorare noi stessi, i nostri prodotti e i nostri servizi, cercando sempre di fare meglio di ieri. Il nostro sito web aziendale, [terratintagroup.com](http://terratintagroup.com), che mira a dare un'idea chiara, diretta ed esaustiva di ciò che siamo e di ciò che facciamo. Insieme abbiamo creato il nostro oggi. Insieme creeremo il nostro futuro. Perché la nostra storia è **#notaclassicstory**.

*“Be a yardstick of quality. some people aren’t used to an environment where excellence is expected” (Steve Jobs).*

For us, this is a great inspiration. Within Terratinta Group, people have always made the difference. They are our first asset, no doubt about it. No preferences, no differences, no individualism. We give space to the natural temperament of each one, because we believe that every individual has something unique to offer. Sharing the same vision: building together our future. Because we are convinced that a group has a unique way to grow: together, with passion, in order to achieve the same objective. We are a values-driven company that already reached many goals. All together we created what we are today and what we are going to be tomorrow. In two words: people first.

*“Sii un esempio di qualità. Alcune persone non sono abituate (avvezze) ad un ambiente in cui ci si aspetta l'eccellenza” (Steve Jobs).*

Per noi questa è una grande fonte d’ispirazione. Nel gruppo Terratinta le persone hanno sempre fatto la differenza. Sono la nostra prima risorsa, senza dubbio. Nessuna preferenza, nessuna differenza, nessun individualismo. Diamo spazio al temperamento naturale di ognuno, perché crediamo che ogni individuo abbia qualcosa di unico da offrire. Condividere la stessa visione: costruire insieme il nostro futuro. Perché siamo convinti che un gruppo abbia un modo unico di crescere: insieme, con passione, per raggiungere lo stesso obiettivo. Siamo un’azienda orientata ai valori che ha già raggiunto molti obiettivi. Tutti insieme abbiamo creato ciò che siamo oggi e ciò che saremo domani. In due parole: prima le persone.

## Showroom & offices

---

By the end of 2017 our Showroom has been completed to the highest architectural and design standards, and from that day we kept on making improvements by adding few amenities like the Company Gym, the Kids Area and a fully equipped and working Kitchen/ Dining place. When we started the works in via Monte Bianco our aim was to create an inspiring, smart and contemporary working and showing space, in which ourselves as a team and our customers could actually feel good and relaxed, performing their activities at their best. We think we nailed it!

A fine 2017 la nostra Showroom è stato ultimata seguendo i più alti standard di architettura e design; da quel giorno abbiamo continuato a migliorarla, aggiungendo alcuni servizi come la palestra aziendale, l'area bambini ed una cucina/ sala da pranzo completamente attrezzata e funzionante. Quando abbiamo iniziato i lavori in via Monte Bianco, il nostro obiettivo era quello di creare uno spazio di lavoro stimolante, fresco e contemporaneo, in cui noi stessi come squadra e i nostri clienti potessimo davvero sentirsi bene e rilassati, svolgendo le nostre attività al meglio. Pensiamo di esserci riusciti!

## #terratintastyle

---

Terratinta Ceramiche is a ceramic and porcelain tile brand, specialized and leader in north european design inside floor and wall finishes business. Thanks to our products' style, we have strengthened ourselves as front-runner in the creation of ceramic tiles with a specific North European design. Our products range is suitable for both commercial use and interior design, which continues to be our main focus. 5 main points characterise our collections:

**#welovegreys**: all of our Beton and Stone series have several grey tones, from warm to cold hues, from light to dark, from the most neutral to the most individual gradations. Endless interpretations of Grey.

**#decors**: since the end of 2013, with our well-known Betonepoque collection, we have been think leaders in the interpretation of decorative style within ceramics, offering products with different shapes and technologies. Modern and minimalist graphics and colors are intertwined with more vintage patterns, resulting in astonishingly fresh and unusual aesthetic effects.

**#bigandsmall**: over time, thanks to new technologies, sizes with over 40 years of history (like 10x10, 10x20, 15x15cm), are being interpreted in new, modern ways proposing solutions for innovative uses in both small and large spaces. Alongside the development of small-sizes, we continued to design big-sizes, having expanded our range to include 80x80, 90x90cm up to most recently 120x120/ 60x120cm sizes. Nobody can offer such a cross-cutting range.

**#nordictrends**: in the last few years, we have followed Scandinavian style and design within the furnishing industry and designed ceramic tiles and mosaics in the latest color trends, from pastels to more loud hues: a perfect match with our range of Grey's.

**#concepts**: thanks to The Four Shades Concept and Betonstil collections, we introduced to the market a new working method, where the collections are not ends in themselves, but can be combined with each other. Different elements, product styles, sizes, decorations and textures merged together to create unusual and refined solutions under a specific color tone, which is never exactly the same or trivial. This is a new form of minimalism. A warm minimalism.

These 5 distinguishing points of Terratinta Ceramiche create a unique style, a new warm minimalism that merges perfectly with North European design, which today has become a trend all around the world. Minimalist but cosy, stylish but clear: #terratintastyle.

Terratinta Ceramiche è un marchio di piastrelle in ceramica e gres porcellanato, specializzato e leader nel design nord europeo nelle finiture di pavimenti e rivestimenti. Grazie allo stile dei nostri prodotti, ci siamo specializzati nel design di piastrelle in ceramica con uno specifico look nord europeo. La nostra gamma di prodotti è adatta sia per l'uso commerciale che per l'interior design, che continua ad essere il nostro obiettivo principale. 5 punti principali caratterizzano le nostre collezioni:

**#welovegreys:** tutte le nostre serie Beton e Stone hanno diversi toni di grigio, da tonalità calde a fredde, da chiare a scure, dalle gradazioni più neutre a quelle più individuali. Interpretazioni infinite di grigio.

**#decors:** dalla fine del 2013, con il nostro noto progetto Betonepoque, siamo diventati leader nell'interpretazione dello stile decorativo ceramico, offrendo prodotti con formati e tecnologie diverse. Grafica e colori moderni e minimi si intrecciano con decori più vintage, regalando effetti estetici sorprendentemente freschi e insoliti.

**#bigandsmall:** nel corso del tempo, grazie alle nuove tecnologie, i formati con oltre 40 anni di storia (come il 10x10, 10x20, 15x15cm), vengono interpretati in modi nuovi e moderni, con soluzioni per usi innovativi in spazi sia piccoli che grandi. Accanto allo sviluppo di piccoli formati, abbiamo continuato a progettare i grandi formati, ampliando la nostra gamma con l'introduzione dei formati 80x80, 90x90cm fino agli ultimi 120x120/ 60x120cm. Nessuno può offrire una gamma così trasversale.

**#nordictrends:** negli ultimi anni abbiamo seguito lo stile e il design scandinavo nel settore dell'arredamento, progettando piastrelle e mosaici in ceramica nelle ultime tendenze di colore, dai toni pastello a tonalità più forti: un abbinamento perfetto con la nostra gamma di grigi.

**#concepts:** grazie al The 4Shades Concept e alla collezione Betonstil, abbiamo introdotto sul mercato un nuovo metodo di lavoro, in cui le collezioni non sono fini a sè stesse, ma possono essere combinate tra loro. Elementi diversi, stili di prodotto, formati, decorazioni e pattern si fondono per creare soluzioni insolite e raffinate con una specifica tonalità di colore, mai uguale o banale. Questa è una nuova forma di minimalismo. Un minimalismo caldo.

Questi 5 punti distintivi di Terratinta Ceramiche creano uno stile unico, un nuovo minimalismo caldo che si fonde perfettamente con il design nord europeo, che oggi è diventato una tendenza in tutto il mondo. Minimalista ma accogliente, elegante ma chiaro: #terratintastyle.

# KOS

*unglazed porcelain stoneware  
gres porcellanato non smaltato*

since 2018

A new interpretation within concrete look, minimalist and contemporary, with a new material that offers high-level performances and a style that ranges from architecture to interior design. Kos collection comes in 5 colors, with cooler and warmer shades of gray and several sizes, from the small ones to the bigger ones, with full continuity with #terratintastyle. 7 years after our renowned Betontech series, Kos comes as a new chapter, although we keep on thinking in the same way: simplicity, now as it always has, is priceless.

Una nuova interpretazione dell'effetto cemento, minimalista e contemporaneo, con un nuovo materiale che offre prestazioni di alto livello e un'estetica che spazia dall'architettura all'interior design. La collezione Kos è disponibile in 5 colori, con tonalità di grigio più fredde e più calde in diversi formati, dal grande al piccolo, in piena continuità con il nostro #terratintastyle. A 7 anni dalla nostra famosa serie Betontech, Kos si presenta come un nuovo capitolo, nonostante noi continuiamo a pensarla allo stesso modo: la semplicità, ora come sempre, non ha prezzo.

# THE FOUR SHADES CONCEPT

*a sophisticated and polyhedric project  
un progetto sofisticato e poliedrico*

since 2014

The Four Shades Concept is a project designed starting from four colors of Betontech collection: White, Grey, Clay and Mud. We worked on these four shades and created an original, fresh and unusual concept, where the porcelain tiles meet glass mosaics, where a re-interpretation of graphic decoration meets the latest ceramic technologies. The Four Shades Concept: a sophisticated and polyhedric project.

The Four Shades Concept è un progetto ideato partendo da quattro colori della collezione Betontech: White, Grey, Clay e Mud. Lavorando su queste tonalità, abbiamo creato un concetto originale, fresco e insolito, in cui il gres porcellanato si accompagna a mosaici di vetro e una reinterpretazione dei decori incontra le più recenti tecnologie ceramiche. The Four Shades Concept è un progetto sofisticato e poliedrico.

*gres porcellanato non smaltato  
gres porcellanato smaltato-Esagona*

since 2017

Betonaxis is the new chapter within The Four Shades Concept, only in White and Grey colors. A further interpretation of concrete look, this time a shuttered concrete look, with a strong graphic character lightened by colors suitable for different styles and spaces, from the most sophisticated and modern to the most vintage ones. In addition to the standard ones, the two new sizes 120x120cm and 60x120cm in the brand new “Light” thickness. The hexagonal size is the great closure of this project, following the trend of our well-known Betonepoque & Betonsquare collection, pure #terratintastyle. Modern look vs vintage look: it goes without saying.

Betonaxis è il nuovo capitolo all'interno del “The Four Shades Concept”, solo nei colori White e Grey. Un'ulteriore interpretazione del look cemento, questa volta un effetto “cemento cassero”, con un forte carattere grafico alleggerito da colori adatti a diversi stili e spazi, dai più sofisticati e moderni a quelli più vintage. Oltre a quelli standard, i due nuovi formati 120x120cm e 60x120cm nel nuovissimo spessore “Light”. Il formato “Esagona” è la chiusura perfetta di questo progetto, nel segno delle nostre famose collezioni Betonepoque & Betonsquare, puro #terratintastyle. Look moderno VS look vintage: unione perfetta.

since 2016

They told us that the 10x10 size was old: we didn't believe it. A fresh and contemporary glazed porcelain stoneware project, which gives a brand new life to a traditional size. With the four colors of The Four Shades Concept and with Betonepoque patterns brought in a smaller size, this is a project suitable for any residential or commercial area, #terratintastyle at its fullest. Together with Mosaics 1,7x1,7 cm, a series that introduces itself into an even more technical and innovative look. Simple, innovative, clean. Square.

Ci avevano detto che il 10x10 era un formato vecchio: non ci abbiamo creduto e abbiamo scelto questo formato tradizionale per realizzare un progetto vivace e contemporaneo. Gres porcellanato smaltato declinato nei quattro colori del Four Shades Concept e nei decori Betonepoque, proposti in piccolo formato, insieme a mosaici 1,7x1,7cm: una serie tecnica ed innovativa, adatta sia all'uso residenziale che commerciale. Autentico #terratintastyle. Semplice, sobria, innovativa. Betonsquare.

vantaggi

Unglazed porcelain mosaics of only 4 mm thickness: high technical performances and refined aesthetic research in the four colors of The Four Shades Concept.

- wear resistant
- breakage resistant
- frost resistant
- suitable for both floors and walls, even high traffic ones

Chips combined together in 31,6x31,6 cm sheets through the application of “glue dot”:

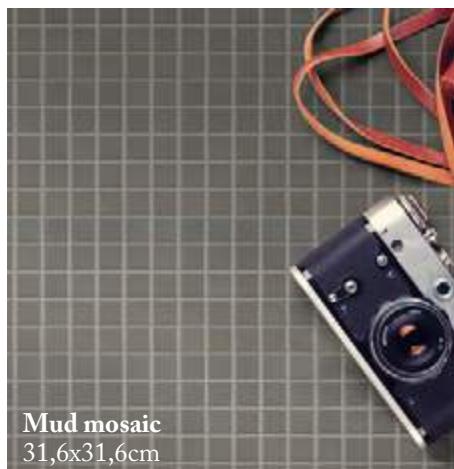

- practical
- easy to handle
- resistant
- suitable for wet areas
- easy to lay down, even onto curved surfaces

Mosaici in gres porcellanato non smaltato di soli 4mm di spessore: elevate prestazioni tecniche e raffinata ricerca estetica nei quattro colori del Four Shades Concept.

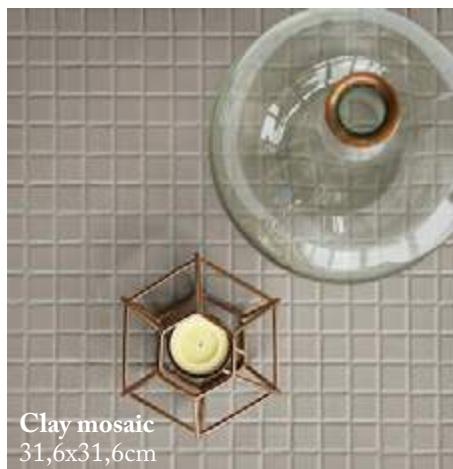

- resistente all'usura
- resistente alla rottura
- resistente al gelo
- adatto a pavimenti e rivestimenti, anche quelli ad alto traffico

Tessere combinate insieme in fogli di 31,6x31,6cm attraverso l'applicazione del “punto colla”:

- pratico
- facile da gestire
- resistente
- adatto ad ambienti umidi
- facile da posare, anche su superfici curve

Terratinta Betonsquare Mosaics guarantee high standards in **safeguarding** and **respecting the environment**. The production system and management choices adopted allow us to keep consumption of natural resources and pollution down to a minimum. The manufacturing of the atomized paste (base) and powdered enamels (color), is done by dry pressing without the use of water, creating a more durable quality product and avoiding the production of waste water discharge. The firing is done using a modern electric oven, powered by green energy produced from renewable sources (wind turbines and solar power), avoiding the use of fossil fuels and atmospheric emissions. All scrap and waste are collected separately and sent for recycling.

I Mosaici Betonsquare di Terratinta garantiscono elevati standard nella **salvaguardia** e nel **rispetto dell'ambiente**. Le scelte adottate per la produzione e la gestione, ci permettono di mantenere il consumo delle risorse naturali e l'inquinamento al minimo. La fabbricazione di impasto atomizzato (base) e smalti in polvere (colori), è fatta da pressatura a secco senza l'uso di acqua, e ci permette sia di creare un prodotto di qualità più durevole che di evitare lo scarico delle acque reflue. La cottura viene fatta utilizzando un forno elettrico moderno, alimentato da energia verde prodotta da fonti rinnovabili (turbine eoliche ed energia solare), evitando l'uso di combustibili fossili e le emissioni in atmosfera. Tutti gli scarti e i rifiuti sono raccolti separatamente e inviati per il riciclaggio.

*Scandinavian project par excellence  
Progetto scandinavo per eccellenza*

since 2016

Light, Mid, Warm, Dark: four colors designed for any indoor space where minimalism, modernity and interior design are the key words. Four modern hues interpreted in three different and astonishing looks: Concrete, Ashwood and Duet. Latest color trends matching with fashion, contemporary style and design: this is Mixdecò, the decorative side of the project, from pink to green passing through blue shades, four modern and refined decors hues. This is Betonstil. The Scandinavian project par excellence, designed to bring a specific visual appeal to every residential or commercial venue: just #terratintastyle.

Light, Mid, Warm, Dark: 4 colori per interni caratterizzati da minimalismo, modernità e design. Quattro tinte attuali interpretate in 3 sorprendenti look: Concrete, Ashwood e Duet. I colori di tendenza incontrano la moda, lo stile contemporaneo e il design: ecco Mixdecò e Hexa. Dal bianco al rosa, dal verde al blu, quattro tonalità moderne e raffinate per i decori e i mosaici della collezione. Questa è Betonstil. Il progetto Scandinaivo per eccellenza, realizzato per garantire una particolare attrattività ad ambienti residenziali e commerciali. Puro #terratintastyle.

**CONCRETE**, cement effect with slight shade variation, a versatile and excellent material with the highest technical and aesthetic performances. A new size, 80x80 cm, perfect for big areas where minimalism and contemporary thinking are the perfect choice for any design expression.

**CONCRETE**, effetto cemento con lieve variazione cromatica, un materiale versatile ed eccellente, dalle elevate qualità tecniche ed estetiche. Un nuovo formato, 80x80cm, perfetto per ampi spazi, dove il minimalismo e lo stile contemporaneo sono la scelta perfetta per ogni espressione di design.

**ASHWOOD**, oiled ash prime grade wood, a real Scandinavian wood look, perfect for any indoor space of great visual impact, where elegance and minimalism are the keys. Original interpretation in gres porcelanato in 20x120 cm size, modern and linear, added to a smooth and pleasant matt finish. The perfect balance between the warmth of the wood and the modernity of the colors.

**ASHWOOD**, effetto legno di frassino oliato senza nodi, un vero e proprio effetto legno scandinavo, perfetto per interni eleganti e minimalistici di grande impatto visivo. Un'interpretazione originale in gres porcellanato nel formato 20x120cm, moderno e lineare, abbinato ad una finitura matt liscia e gradevole. Il perfetto equilibrio tra il calore del legno e la modernità dei colori.

**DUET**, a special combination of Concrete and Ashwood in a new and stunning size, 10x70 cm! This is just perfection, through herringbone ways of fixing, it will lead to a new and natural feeling of the wood look in porcelain. Not rectified but with straight edges to make possible even 1mm joints. A great intuition where wood overtakes the concrete feeling, staying anyway in an original dual soul.

**DUET**: la speciale combinazione di Concrete e Ashwood nel nuovo eccezionale formato 10x70! Pura perfezione. La posa a lisca di pesce garantisce al porcellanato l'effetto naturale del vero legno. Non rettificato, ma con lati diritti che rendono possibili fughe anche solo di 1 mm. Una grande intuizione, dove l'effetto legno prevale sul cemento, mantenendo al contempo un'originale e duplice anima.

**MIXDECÒ** is a new chapter of decoration in pure #terratintastyle. This time is about colors, always with “Maiolica” look. Three mix of 9 patterns each in 3 different shades (rosy blush, wild sage, deep navy), plus the union: all the 27 decors in the 3 colors mixed together, a marvelous balance between vintage and modern which creates something really new, never seen before. Mixdecò comes in two different finishes: satin, a materic matt feeling, and wet&shiny, stunning and bright gloss effect. Also suitable for residential floors, Mixdecò is just the quintessence of “Maiolica” design.

**MIXDECÒ** rappresenta un nuovo capitolo per la decorazione, in puro #terratintastyle. Questa volta è sui colori, sempre nel look “Maiolica”. Tre mix di 9 decori in 3 diverse tonalità (‘rosy blush’, ‘wild sage’, ‘deep navy’), più ‘union’: tutti i 27 decori nei 3 colori miscelati insieme, un meraviglioso equilibrio di vintage e moderno, che da’ vita a qualcosa di veramente nuovo, mai visto prima. Mixdecò è disponibile in due diverse finiture: “satin”, una sensazione materica opaca, e “wet&shiny”, splendido e luminoso effetto lucido. Adatto anche a pavimenti residenziali, Mixdecò è la quintessenza del design “Maiolica”.

gres porcellanato non smaltato*

since 2017

Stonenature is the newest series within Stone's collections, marked by our well-known #terratintastyle. The pure natural beauty of Nordic natural stone sits alongside the contemporary, original and fresh look of Naturedek, another masterpiece within our decoration chapter. Two finishes, Matt R10, free of light reflection, and Wet, the latest generation lappato finish in a high gloss and wet look: again for Terratinta Ceramiche, a project designed and suitable for both interior design and heavy commercial traffic. Fine porcelain unglazed tiles at their best.

Stonenature è la nuova serie all'interno della gamma Stone, contrassegnata dal nostro famoso #terratintastyle. La pura bellezza della pietra naturale nordica affianca il look contemporaneo, originale e fresco di Naturedek, un altro capolavoro all'interno del nostro capitolo "decori". Due finiture, Matt R10, senza riflessi di luce e Wet, un lappato di ultima generazione dall'aspetto lucido e bagnato: ancora una volta per Terratinta Ceramiche, un progetto disegnato e adatto sia per l'interior design che per spazi commerciali ad alto traffico. Gres porcellanato non smaltato al suo meglio.

'Light' since 2017

The STONE concept has been created to combine the basic perfection of the natural stone with the latest technologies and styles: STONEDESIGN is a project designed for indoor and outdoor spaces with a sophisticated and modern identity, and it is suitable also for heavy traffic areas. Unglazed porcelain tiles at their best.

Il concetto STONE nasce per combinare la semplice perfezione della pietra naturale con i più recenti stili e tecnologie. STONEDESIGN è un progetto pensato per interni ed esterni dall'identità moderna e sofisticata. Adatto anche ad aree ad alto traffico commerciale. Il meglio del porcellanato non smaltato.
